## Courses

### Programming 1, Programming 2

Jensen Mars 2024 — Juni 2024

## Work experience

Reception manager, Stockholm inn hotell, Stockholm Juli 2023 — Juli 2024

Front office manager, Hoom park Hotel, Solna, Stockholm

Februari 2023 — Juli 2023

Front office manager, Ramilton hostel, Gamla stan, Stockholm  
Juli 2019 — Januari 2023

## Profile

After several years in the hotel industry, where I rose from receptionist to Front Office Manager, I have developed solid skills in customer service, problem solving and leadership. My interest in technology and work efficiency inspired me to change careers and train as a cloud and .NET developer at JENSEN University of Applied Sciences.

I enjoy analyzing problems, finding solutions and creating systems that make work easier for users. During my education, I have acquired deep knowledge of C#, .NET, Azure services and database management, and I appreciate combining logical thinking with creative problem solving.

I am a committed and independent individual who quickly adapts to new tasks and I enjoy collaborating in teams to achieve common goals.

## Technical skills

- Object-oriented programming with C# och .Net.
- Systematic application development.
- Frontend: HTML, CSS, JavaScript, React
- Cloud services for development in Azure.
- Database design
- API design
- Azure APP-Service - Key Vault - Identity management
- CI/CD DevOps
- Docker och Containers.

## **Internship**

Now it's time for Internship (LIA)

I am looking for an Internship (LIA) position during the following periods:

Period 1: 2025-11-10 -- 2026-02-13

Period 2: v2026-02-16 -- 2026-05-08.

I would like to contribute to projects related to **API design, database management, Azure services or automation with CI/CD and Docker containers.**

During the Cloud Developer with Azure studying at JENSEN University of Applied Sciences, I have gained practical knowledge in **C#, .NET Core, SQL Server and Azure App Services and Docker Containers. as well as basic frontend with HTML, CSS, JavaScript and React.**

I enjoy taking responsibility, solving problems and collaborating to deliver working solutions.

---

### **The goal is :**

To grow as a cloud and .NET developer with a focus on application development in Azure. I want to strengthen my skills in backend, API design and DevOps, as well as broaden my knowledge in frontend technologies to be able to contribute to the entire development process.
