PROFILE

Junior .NET Developer with hands-on experience building and deploying ASP.NET Core applications on Microsoft Azure. Skilled in Web APIs, EF Core, SQL, authentication, App Service, Azure SQL, Blob Storage and CI/CD. Completed two software development internships and built production-style cloud projects.

TECHNICAL SKILLS

.NET: C#, ASP.NET Core, MVC, Web API, EF Core, ASP.NET Identity, JWT, Dapper

Frontend: React, JavaScript, HTML, CSS, Bootstrap

Azure: App Service, Azure SQL, Blob Storage, Key Vault, Managed Identity

DevOps & Data: Azure DevOps, CI/CD, Git, GitHub, Docker, SQL Server, PostgreSQL

PROFESSIONAL EXPERIENCE

Software Developer Intern, Scheduling Platform | ZoCom, Stockholm | 16 Feb 2026 to 8 May 2026

- Contributed to a scheduling platform replacing a manual Google Sheets Gantt workflow for teachers, courses, assignments, and availability.
- Developed ASP.NET Core API functionality integrated with a Java service, JavaScript frontend, and SQL database in a containerized architecture.
- Supported search and filtering by teacher, course, location, availability, and date range while working with GitHub and daily Scrum practices.

Software Developer Intern, HR Management System | Superior Skills, Stockholm | 10 Nov 2025 to 13 Feb 2026

- Built a full-stack HR management system in ASP.NET MVC with role-based authentication and permission management.
- Designed an Azure DevOps CI/CD pipeline that reduced deployment time by approximately 40%.
- Deployed to Azure App Service and Azure SQL, securing secrets with Key Vault and Managed Identity.

SELECTED PROJECTS

ATS, Applicant Tracking System | ASP.NET Core, EF Core, Identity, Azure SQL, App Service, Azure DevOps

Built a multi-tenant recruitment platform with isolated workspaces, role-based access, Kanban tracking, automated CI/CD, and Azure hosting.

ImageStore Application | ASP.NET Core MVC, Azure Blob Storage, Azure SQL, App Service

Implemented cloud file handling, storing binaries in Blob Storage and structured metadata in Azure SQL.

Stockholm Inn Blacklist | ASP.NET Core MVC, Azure SQL, Managed Identity, App Service

Developed a searchable hotel application with service layers, pagination, dashboards, and passwordless Azure SQL authentication.

Auction Website | ASP.NET Core API, React, Dapper, SQL Server, JWT, Unit Testing

Delivered a full-stack auction platform with bidding workflows, JWT, stored procedures, Swagger, and React.

EDUCATION

Higher Vocational Education Diploma, Cloud

Developer Azure

JENSEN University of Applied Sciences | 400 HVE credits | 2024 to 2026

Pass with distinction (VG): Secure Development with C# on Azure, Frontend Development, LIA 1, LIA 2, Degree Project

ADDITIONAL EXPERIENCE

Reception & Front Office Manager

Stockholm Inn Hotel, Hoom Park Hotel, Ramilton Hostel | 2019 to 2024

Languages: Arabic native, English fluent, Swedish intermediate |

Driving licence: Class B
