Dear Hiring Manager,

I am writing to express my interest in a .NET Developer or Cloud Developer position within your organization. With hands-on experience in .NET technologies and Azure cloud services, I am eager to contribute to building scalable, efficient applications and continuously grow as a developer.

I have practical experience working with C#, ASP.NET MVC, Web APIs, and modern frontend technologies including React, HTML, CSS, and JavaScript. In addition, I have developed and deployed applications using Azure services such as App Service, Azure SQL, and implemented CI/CD pipelines.

During my project work, I built backend systems using .NET and integrated APIs with different technologies, including Java-based services and PostgreSQL databases. I also have experience with tools such as Docker, Entity Framework, and GitHub for version control and collaboration.

My previous experience in the hotel industry strengthened my ability to work in teams, solve problems under pressure, and communicate effectively with different stakeholders — skills I now apply in software development environments.

I am highly motivated to start my career as a professional developer and would welcome the opportunity to contribute to your team. I am confident that my technical skills, adaptability, and strong work ethic would make me a valuable addition to your organization.

Thank you for your time and consideration. I look forward to hearing from you.

Best regards,

Hany Magdy
